

A 3D rendering of a black industrial cable, likely a power or control cable. The cable is shown at an angle, with its end cut to reveal the internal structure. The outer jacket is black and appears to be made of a durable material. Inside, there is a red insulated conductor, which is further cut to show multiple copper strands. The overall design is sleek and professional, typical of industrial equipment components.

- Flame retardant according to IEC 60332-3-25 (Cat D) : No
- Low smoke according to EN IEC 61034-2 : No
- Halogen free according to EN IEC 60754-1 : No
- Halogen free according to EN IEC 60754-2 : No
- Halogen free according to EN IEC 60754-3 : No
- Reaction-to-fire according to EN 13501-6: Class : Eca
- Reaction-to-fire according to EN 13501-6: Smoke production : None
- Reaction-to-fire according to EN 13501-6: Flaming droplets/particles : None
- Reaction-to-fire according to EN 13501-6: Acidity : None
- UV resistant : No
- Impedance : 75 Ohm
- Cable OD : 6.1 mm
- Suitable for underground installation : No
- Approved type of underground installation : Underground installation tube
