

UNMANAGED SWITCH

GGM INS16RG

Unmanaged Industrial Switch
16-Port Gigabit
DIN RAIL mounting

The **GGM INS16RG** is a non-manageable Industrial switch with 16 Gigabit RJ45 ports for communication between controllers and devices in automation environments.

This high port density switch is used with robots and their peripherals, such as PLCs and HMIs.

In addition, it offers auto-negotiation on all its ports to easily aggregate devices in industrial Ethernet applications.

The **GGM INS16RG** offers various built-in traffic optimisation features to prioritise important industrial data packets, prevent data loss during communication and ensure stable transmission.

The **GGM INS16RG** is built with industrial-grade components to protect it from hazards such as vibration, shock, freefall, interference and dust, making it resistant to harsh industrial environments.

- ▶ Robust components designed for harsh industrial environments
- ▶ Quick and convenient installation with auto-negotiation
- ▶ Industrial-grade EMC design
- ▶ Quality of service

FEATURES

Ethernet :	Yes
Mounting method :	DIN rail
Layer 2 :	No
Layer 3 :	No
Manageable :	No
IP protection :	IP30
Compatible with Grade2TV according to XP-C 90-483 :	No
Compatible with Grade3TV according to XP-C 90-483 :	No

PART-NUMBER	DESCRIPTION
GGM INS16RG	Unmanaged Industrial Switch 16-Port Gigabit DIN RAIL
