

## UNMANAGED SWITCH

### GGM INS5TX

*Unmanaged Industrial Switch*  
*5-Port 10/100Base-TX*  
*DIN RAIL mounting*

The **GGM INS5TX** is a non-manageable Fast Ethernet industrial switch with 5 auto-negotiating 10/100 Mbps ports for extending Ethernet networks in demanding environments.

Auto-negotiation on all its ports enables data to be sent efficiently between devices in industrial Ethernet applications.

Integrated traffic optimisation, with flow control functions, provides reliable performance and prevents packet loss during data transport.

The **GGM INS5TX** is built with industrial-grade components to protect it from hazards such as vibration, shock, freefall, interference and dust, making it resistant to harsh industrial environments.

- ▶ Robust components designed for harsh industrial environments
- ▶ Quick and convenient installation with auto-negotiation
- ▶ Traffic control mechanisms to optimise bandwidth use
- ▶ Intelligent VLAN data transfer

#### FEATURES

<b>Ethernet :</b>	Yes
<b>Number of ports 10/100 Mbps RJ45 :</b>	5
<b>Mounting method :</b>	DIN rail
<b>Layer 2 :</b>	Yes
<b>Layer 3 :</b>	No
<b>Manageable :</b>	No
<b>IP protection :</b>	IP30

PART-NUMBER	DESCRIPTION
<b>GGM INS5TX</b>	Unmanaged Industrial Switch 5-port 10/100Base-TX DIN RAIL
