CENTRAL ACCESS CONTROL PANEL
GGM KITAX2DS

2 Readers securized access control kit + 10 cards. Web manageable

The KITAX2DS is an access control kit that can be used to secure two doors for single access or one door for entry/exit. The solution offers a high level of security through the use of RS485 and Desfire EV2 protocols. In order to reduce the investment associated with a high-security installation, a **GIGAMEDIA** private key is integrated into the solution. This makes it possible to get rid of additional software that can considerably increase the bill on a small project.

This kit consists of an IP control unit, two secure readers (GREADER) and 10 badges (GCARD). It is possible to upgrade your installation up to 42 drives via 4-door expansion modules (AXC4DEXTEVO) in web management only. The hub supports up to 5000 users in web mode and 50,000 with management in ACS software.

Many features integrated into the product will allow you to be efficient in the configuration and use of the solution.

The drive has IK10 and IP65 protection. It has an anti-breach system to remove security keys in the event of a break-in. It comes with a 3m cable for easy connection in the false ceiling.

An ideal solution to

provide a real security response to current threats, the access control kit is the ideal solution for securing all your projects.

FEATURES

Automation relay, automation scenarios :	Yes
Fixing :	Din rail Or SCrewing
Max number of events :	15000
Maximum number of users :	50000
Power supply :	12 vdc
Supported reader protocols :	Wiegand/clockand dATa/rs485

Terminal block :	Up to 3 mm withdrawable section
Controller type :	Central on ip (fixed ip /dhcp)
Standalone :	No
Networkable :	Yes
PC-binding :	Yes
Max. number of doors :	2
Type of interface :	Ethernet
Max. number of persons :	5000
Reading strategy :	Data medium
Signalling :	Light signal
Mounting method :	Surface mounted (plaster)
Operating voltage at DC :	12 - 12
Degree of protection (IP) :	IP65
Colour :	Black
Model :	Reader
Width :	42.2 mm
Height :	111.5 mm
Depth :	22 mm
Compatible with Apple HomeKit :	No
Compatible with Google Assistant :	No
Compatible with Amazon Alexa :	No
IFTTT support available :	No
