

OPTICAL OUTLET, LC TYPE

GGM PLF04LCS2

wall plate fiber optic outlet
45x45
singlemode OS2 LC duplex

The LC OS2 optical outlet, in a 45 x 45 mm module format, will integrate perfectly on trunking, poles, or GOP boxes in office areas. Equipped with 2 LC duplex adapters and their dust covers, its discreet rounded profile helps to limit the bending of the user patchcord. A label and its protective window facilitate the identification of the optical port.
