RACKS & ENCLOSURES

GIGAMEDIA is a French brand created in 1996 part of Rexel Group.

GIGAMEDIA provides a **full range of innovative solutions for installers, integrators and engineering departments**, dedicated to the distribution of structured cabling systems, security, IT infrastructure and telecommunication networks. The solutions offered by GIGAMEDIA are **key elements of smart building infrastructures**. Products in the GIGAMEDIA range are designed to help installers meet and exceed their clients' expectations and make the most of their infrastructure investment.

The wide range of high performance products offers exclusive features and helps installers save time and cut installation costs.

GIGAMEDIA
SMART BUILDING SOLUTIONS

NETWORKING   VIDEOSURVEILLANCE   ACCESS CONTROL   PUBLIC ADDRESS

+ 100
EMPLOYEES
Throughout Europe
and North America.

+ 25
YEARS
Of expertise dedicated
to your projects.

+ 4500
SKUS
In the range,
in 7 product ranges.

12
COUNTRIES
GIGAMEDIA solutions are
distributed in 12 countries
exclusively through REXEL
(>1 000 branches).

1
HEAD OFFICE
Lille (France)

GIGAMEDIA copper cabling solutions are designed to support Ethernet protocols up to 10 Gigabit/s along with the remote power supply of devices up to 90 W (4PPoE).

The solution is comprehensive and offers comfort and convenience to the installers, as well as great headroom above the applicable standards.

All components meet and exceed the requirements of ISO 11801 & EN 50173 standards and are tested individually and together in a channel application to ensure their capability.

FIBRE OPTIC CABLING SYSTEMS
CABLES

GIGAMEDIA's fibre optic cabling systems are the ideal support for very high-performance converged applications.
They cater to the latest technologies, delivering the highest bandwidth and high-speed data rates required nowadays, over long distances.

The products offer ease of use and implementation, and are fully adapted to the use and requirements of installers in the field.
