

CATEGORY 5E U/UTP PVC CORD

GGM CAT5E20M

Patch cord CAT5e
U/UTP PVC
20 m
grey

The category 5 cords in the **GIGAMEDIA** range are dedicated to high speed, high performance applications, up to Gigabit Ethernet. Recommended for connecting workstations or patch cords in repeaters, in screened or unshielded installations. Essential component for the installed link, they have a guaranteed quality level ensured by an individual test. Thanks to a rigorous selection of the components and our volume of purchases, we can offer top of the range cords at competitive prices.
