

SURFACE MOUNTED SUCTION CUP

GGM AXM300LDNF

SURFACE MOUNTED SUCTION CUP 300KG NF61937 LED + CONTACT

The GGM AXM300LDNF is a surface mounted suction cup with 300 kg retention force with an LED to indicate its status and a position contact able to transmit information to remote equipment. This suction cup complies with the standard NFS-61937 relative to the DAS (Distributed Antenna System) for FPS (Fire Protection Systems).

FEATURES

| | |
|---------------------------------|------------------|
| Retention force (kg) : | 300 |
| NFS 61-937 compatible : | Yes |
| Magnet Resistance (kg) : | 300 |
| Power supply : | 12 or 24 VDC |
| Mounting style : | Surface-mount |
| Integrated varistor : | Yes |
| Integrated led : | Yes |
| Position switch : | Yes |
| Suction cup feed : | 12 or 24 VDC |
| Weight (kg) : | 2 |
| Voltage type : | DC |
| Power consumption : | 5.76 W |
| Format : | Angular |
| Mounting method : | Surface mounting |
| With anchor plate : | Yes |

| | |
|--|-----------|
| Wall mounting : | No |
| Floor mounting : | No |
| Suitable for ceiling mounting : | No |
| Housing material : | aluminium |
| Explosion-proof : | No |
| Width : | 250 mm |
| Height : | 48.4 mm |
