

## OPTICAL OUTLET, LC TYPE

### GGM PLF04LCM4

wall plate fiber optic outlet  
45x45  
multimode OM4 LC duplex

The LC OM4 optical outlet, in a 45 x 45 mm module format, will integrate perfectly on trunking, poles, or GOP boxes in office areas. Equipped with 2 LC duplex adapters and their dust covers, its discreet rounded profile helps to limit the bending of the user patchcord. A label and its protective window facilitate the identification of the optical port.
