

14" CABLING WALLMOUNT CABINET SOBOX GGM SOCOF11UN

11 U
360 Mm depth
Black

Also dedicated to restricted environments "SMALL OFFICES" (medical surgeries, pharmacies, mini-markets, shops, ...) the SOBOX cabinet is a development of the 123 CONNECT.

Indeed, after having innovated in 199, by launching onto the market our "123 CONNECT", the purpose of the "SOBOX" was to devise a new offer which, in addition to the IT pre-cabling, could also allow you to integrate video surveillance, sound system solutions as well as an operator BOX, all this, in a cabinet as compact and discrete as possible compared to a 19" cabinet.
