

Omni-directional 4 array pickup distance echo cancellation, intelligent noise reduction, voice enhancement

UNW HB7199MC04

This omni-directional 4-array microphone features advanced capabilities including echo cancellation, intelligent noise reduction, and voice enhancement. It is designed to pick up sound effectively from all directions within an 8mm distance, making it suitable for clear and high-quality audio capture in various settings. The microphone connects via USB 2.0 Type-C and is compatible with Windows, Mac, and Linux operating systems, offering versatility and ease of use for desktop installations.
