

PATCH CORD CAT6A UFTP OUTDOOR PE

GGM CAT6AUF2MPE

Outdoor Use
Black PE Jacket
2 m

Outdoor Cat6A U/FTP RJ45 Patch cords with polyethylene (PE) are designed for outdoor use, providing reliable and fast network connectivity for outdoor applications. These cables are built to withstand outdoor environmental conditions such as moisture, extreme temperatures, and UV rays, ensuring optimal performance even in challenging environments.

Available in C6A U/FTP AWG32 version, with short molded boots (Ultra Slim Boots) to promote a minimum bending radius for difficult access.

Available from 30 cm to 3 m lengths. For lengths beyond that, it is recommended to use standard CAT6A S/FTP PE version.

FEATURES

Category :	6A (IEC)
Shield type :	U/FTP
AWG :	32/7
Gold plating :	50 µm
NVP :	70 %
Conector Type :	RJ45
Compliant with :	ANSI/TIA/EIA-568.2-D ; EN 50173, ISO/IEC 11801
Applications :	IEEE 802.3 : 10GBase-T; 5GBase-T; 2.5GBase-T; 1000Base-T; 100Base-T; 10Base-T IEEE 802.3af/at/bt (PoE/PoE+/4PPoE)
Jacket colour :	Black
Boot :	Moulded-on
Snagless :	Yes
Boot colour :	Black
Fire retardant :	No
Zero halogen :	No
Oil resistant :	No
Wire scheme :	Straight
Outer diameter :	3,8 mm
Length :	2 m
