Cable 2FO G657A2 bend insensitive singlemode loose Cable (250µm fibers without tube) with aramid yarns reinforcement, LSZH Dca outer jacket, white colour

GGM F2BG657DLST

These subscriber cables are intended for FTTx installations The outer zero halogen, UV stabilised sheath allows for indoor or outdoor use. Stapling and door passages (at an angle) are made possible thanks to an adapted design and the integration of fibres with a small radius of curvature (G657A2). Two cables are available;- cables with 2 or 4 sheathed fibres in 250µm - cables with micromodules of 2 or 4 fibres; sheathed fibres of 250µm in a dry and flexible 900µm module.
