SOBOX empty & modular 14" black patchpanel, to be loaded with 2 modules for adapters GGM PABxx, or blank module GGM PAOBB

GGM SOTONR

Unloaded 14" modular sliding patch panel for up to 12 ports.
Its modularity allows the integration of a wide variety of connector types, and the management of up to 24 fibres within the panel.

Featuring depth-adjustable mounting brackets, it can be recessed, thus easing the management of the bending radii of the patchcords on the front face.

- Convenient opening / closing system with clips
- For up to 2 modules
- Format : 14"
- Height : 1 module
- Depth : 157 mm
- Number of ports: From 1 to 12 according to the type of module chosen (optional)
- Colour : RAL 9005
- Mounting: On the front 14" profiles, using the GGM SOCLIP50N clips
- Only fits on the 14" SOBOX wallmount cabinets
