Temperature and humidity sensor for PDU XP

GGM XPSTH

Essential to reliably measure Temperature and humidity at the rack level and monitor operating conditions of IT equipments.

Product features

- Produit : Temperature and humidity sensor

Article features

- Temperature measuring range : -40 °C à + 85 °C
- Humidity measuring range : 0 - 100 % ±2 % RH (pas de condensation)
- Electrical features : 5 VDC 40 mA / 24 VDC 125 mA
- Cable length (m) : 2
- Color : Black

ETIM 10 features

- Model : Sensor
