Digital cylinder with integrated network node
OVS MKZ4EEIIAP2FDFHLNZKG2

Warning !
This picture does not show the exact color

The anti-panic cylinder has been specially developed for use on emergency exit doors. The anti-panic cylinder freely rotates on both sides such that the lock can be locked and unlocked from both sides with an authorised transponder. In an emergency situation, the door can even be opened thanks to the anti-panic lock function. It must only be integrated into locks for which it is approved.

- Battery life : Up to 300,000 closures or up to 10 years in standby mode
